# 60/120 Watt Highpower LED Grow Module

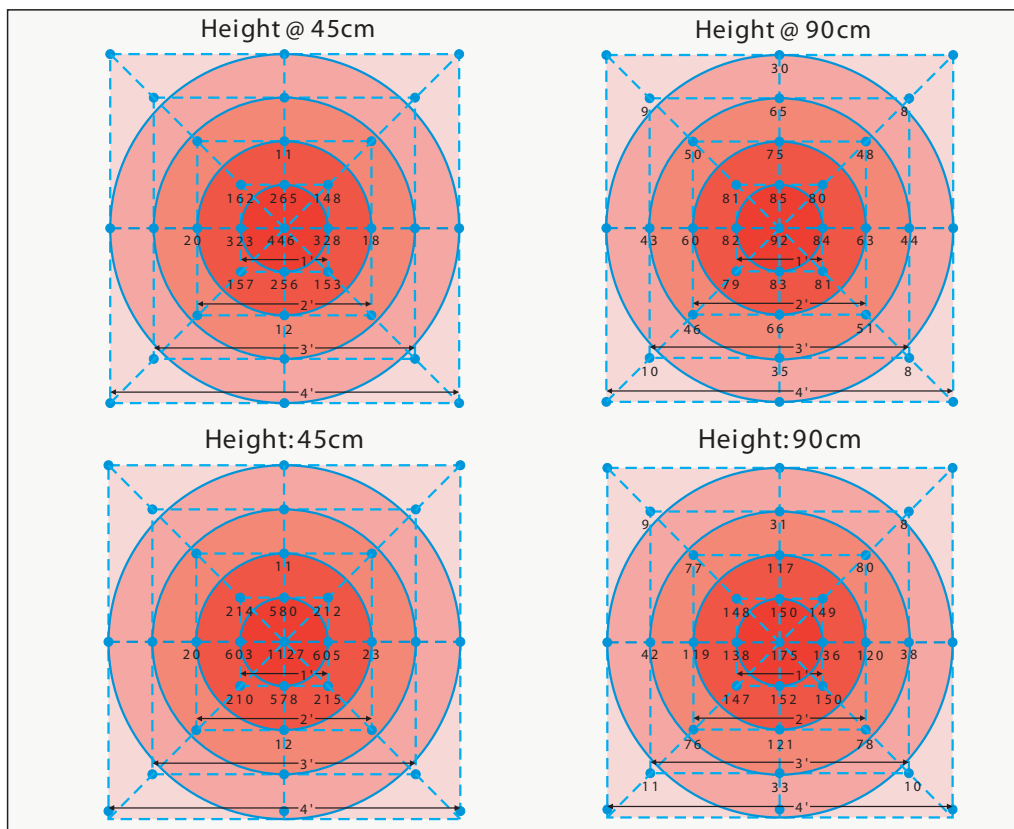

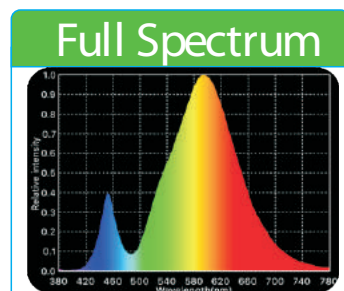

**Full Spectrum:** Can be used for the vegetative as well as the flowering phase.

**Plug And Grow:** Complete with COB, heatsink, hanging kit, and everything included.

**Multiple Applications:** Can be used as a primary light, but also perfectly as a side light or supplementary light.

**Cool To Touch:** Perfect thermal management to ensures the best performance and lowest noise.

	ITEMS	60/120 W LED GROW MODULE
Product	Packing Dimension	260 x 120 x 110mm
	Gross Weight	0.82KG /0.85KG
Power	Power Consumption	60W/120W
	Input Voltage	AC100V~265V/50-60Hz
	Input Current	0.6-0.23A / 1.2-0.45A
LEDs	Total Number of LED's	18/36 PCS
	Spectrum/Color Ratio	3000K
	Light Source	CREE-XTE 5W
Beam Angle	Secondary Lens	60 Degrees
Ambient Temperature	Storage Temp.	0°C ~ 40°C
	Operation Temp.	-10°C ~ 45°C
Life Span		Over 50,000hr

## Use Instructions

- Designed for indoor use only, do not place near any fogger/mister or in ambient rooms with greater than 80% humidity.
- Put the lights in a fixed position, can not block the vents. This will ensure ample airflow for maximum heat dispersion.
- Do not stare directly at the LED diodes when unit is powered without proper protection.
